

30 January 2018

Dear Parents / Carers

This letter is to inform you that we now have a counselling service at Bishop Milner Catholic College provided by Newman Health and Wellbeing, a service being offered by Newman University.

All students are able to access this service, and we are asking you to inform us if you for any reason wish this service to be withheld from your child. Your consent for your child to participate will be assumed if we do not hear from you.

If your child does access the service, we will contact you to inform you. It is hoped that any planned sessions will be held weekly. Please also note that the counsellor is currently in training so sessions will be recorded for University records and safeguarding purposes.

We hope that the Newman Health and Wellbeing counselling service will be beneficial to the overall wellbeing of our students and see it as a positive step towards supporting their emotional development.

Yours sincerely

Mrs S Hand
Student Welfare and Safeguarding Lead
